

**University of Miami**  
**Cooperative Institute for Marine and Atmospheric Studies**

**Associate Scientist in Physical Oceanography**

Position # 039675

The Cooperative Institute for Marine and Atmospheric Studies (CIMAS) of the University of Miami, Rosenstiel School of Marine and Atmospheric Science (RSMAS), invites applications for an Associate Scientist position in Climate/Physical Oceanography. The incumbent will work with scientists in the Physical Oceanography Division of the Atlantic Oceanographic and Meteorological Laboratory (AOML) of the National Oceanic and Atmospheric Administration (NOAA) and in direct collaboration with scientists at RSMAS.

The successful applicant must have a Ph.D. in Climate/Physical Oceanography or related field, a minimum of five years of relevant post-doctoral research experience, with at least one year of Assistant Scientist experience, and interest and experience in one of the following areas:

1. Demonstrated interest and ability in coupled ocean-atmosphere modeling and climate variability. Highly desirable qualifications include knowledge of Unix and Fortran, and the ability to run coupled climate model and to modify model codes for simulating climate variability and ocean circulation and testing some scientific hypotheses.
2. Demonstrated interest in analyzing large oceanographic and climatic data sets. Experience in model-observation comparison and model validation is a plus. Interest in working with all the different data sets collected at AOML.

Additional highly desirable qualifications include a record of scientific publications, and strong commitment to attracting external funding as well as good communication skills.

Position #039675. Curriculum Vitae and the contact information for three references from whom letters of recommendation may be requested are required.
